

Hiddenbed

HIDDENBED by WALLBEDS! Is made in the USA from Real Wood; birch solids and veneers on birch premium 7 seven layer ply-core. HIDDENBED is a patented revolutionary bed and desk system. The secret is in its balancing mechanism. Everything stays on the desktop (items up to 18" in height) when you lower the bed down. When you add the file pier cabinet you have a complete office or work station in your home. It attaches to the wall at the top with three screws into studs. Accepts standard bedding (not included) up to 10" thick .
